Enrich Your Practice and Increase Your Profits by Making Laser Assisted Periodontal Therapy Part of Your Hygiene Schedule

Laser Certification Training Lasers in Hygiene

AGD PACE Program Provider

FAGD/MAGD Credit Approval 04/01/2016-03/31/2018

Hands-On Workshop

In this hands-on clinical simulation program you will learn the specifics of laser fiber optic delivery and discover the delicate nature of using a laser device. Working with simulation exercises, this workshop is designed to build confidence and clinical skill sets ideal for successful implementation of the Diode Laser.

Differentiate the science of laser wavelengths and their absorption characteristics. **Explain** how the lasers function and produce the unique characteristics of light energy. **Recognize** the key elements of laser safety. **Explore** new diagnostic and treatment models that support patient acceptance of **Doctor and Hygiene laser assisted procedures**. **Discuss** the regenerative healing benefits of laser energy adjunctive to conventional SRP. **Employ** Laser Bacterial Reduction and Curettage for Gingivitis, Chronic, Aggressive Periodontitis. **Learn about and support** Dr. treated deep pocket therapy for Aggressive Periodontitis. **Interpret** laser tissue interaction, power settings, and the various techniques used to obtain optimal clinical outcome with periodontal therapy, recall, medically compromised patients and difficult to manage areas. **Successfully increase the number** of laser surgical, periodontal therapy and laser recall management procedures per day. **Profit** from **increased production** as your patients say “yes” to the incorporation of laser.

This Program Meets
The Curriculum Guidelines
for Laser Dental Education
