## Texas Laser Certification Training

Academy of General Dentistry Program Approval For Continuing Education

(AGD PACE) Approved Course Provider

### **Includes the 3 Required TSBDE Hours of Clinical Simulation Hands-On Laser Training Workshop**

Working with simulation exercises, this hands-on laser utilization program is specific to the procedures to be performed by the Dental Hygienist using the laser. **Three of the required hours will include clinical simulation laser training similar to the procedures to be performed by the Dental Hygienist in accordance with the minimum standard of care limited to the Dental Hygienist's scope of practice.**

**Differentiate** the science of laser wavelengths and their absorption characteristics. **Explain** how the lasers function and produce the unique characteristics of light energy. **Recognize** the key elements of laser safety. **Explore** new diagnostic and treatment models that support patient acceptance of **Doctor and Hygiene laser assisted procedures**. **Discuss** the regenerative healing benefits of laser energy adjunctive to conventional SRP. **Employ** Laser Bacterial Reduction for Gingivitis and Chronic Periodontitis. **Learn** about Dr. treated deep pocket therapy for Aggressive Periodontitis. **Interpret** laser tissue interaction, power settings, and the various techniques used to obtain optimal clinical outcome with periodontal therapy, recall, medically compromised patients and difficult to manage areas. **Successfully increase the number** of laser surgical, periodontal therapy and laser recall management procedures per day. **Profit** from **increased production** as your patients say "yes" to the incorporation of laser.

### Laser Certification Training – Lasers in Hygiene

**Certification Certificates of Completion Provided**

This course meets requirement for TSBDE rule Dental Hygienists' Use of Lasers

Approved PACE Program Provider
